Projects

UCME? – Web Platform for Developers and Companies

Nysa, Poland

GRADUATION PROJECT | ROLE: FULL-STACK WEB DEVELOPER

feb. 2024 – jul 2024

- **Overview:** UCME is a professional networking web platform inspired by LinkedIn, designed to connect software engineers and web developers with tech companies worldwide. The project aims to bridge the gap between emerging tech talent and organizations seeking to innovate, providing a dynamic environment for collaboration, recruitment, and professional growth.
- **Objectives:**
 - Empower developers to showcase their projects, skills, and achievements.
 - help companies easily find and recruit qualified developers.
 - foster a professional tech community focused on learning, innovation, and connection.
- **Key Features:**
 - Responsive interface.
 - user authentication & personalized profiles & CVs.
 - job & project posting system.
 - blog & About sections.
 - integrated social links and engagement tools
- **Tech Stack:** HTML5, CSS3, Bootstrap 4, JavaScript, jQuery, PHP, Node.js, Database.

Mentora – E-Learning Platform

Digital Egypt Pioneers Initiative

(DEPI)

TEAM PROJECT | ROLE: FRONT-END DEVELOPER

Oct. 2024 – Jun. 2025

- **Overview:** Mentora is an interactive e-learning web platform designed for self-paced online courses, enabling instructors to upload and manage content while learners access courses and track their progress efficiently.
- **Objectives:**
 - Provide a centralized platform for online learning and teaching.
 - Simplify course creation and management for instructors.
 - Enhance learners' experience through progress tracking and personalized dashboards.
- **Key Features:**
 - **Admin Dashboard:** Monitor and manage all uploaded courses and users.
 - **Instructor Dashboard:** Create, update, and manage course materials.
 - **Learner Dashboard:** Track enrolled courses, progress, and performance.
 - User-friendly interface ensuring seamless navigation and accessibility.
 - Integrated database for storing student data, course content, and progress reports.
- **Tech Stack:** HTML5, CSS3, JavaScript, Bootstrap, Node.js, Database, ASP.NET Core.

Technical Skills

- **Languages & Frameworks:** C++, C#, Python, JavaScript, React, Node.js, .NET Core, PHP, OOP
- **Web Development:** HTML, CSS, Bootstrap, REST APIs
- **Databases:** MySQL, SQL Server
- **Tools:** Git/GitHub, VS Code, Figma, Photoshop, Illustrator
- **Soft Skills:** Problem-solving, leadership, teamwork, mentorship, public speaking, time management

Certifications & Achievements

- Full Stack .NET Development — DEPI Rwad
- TOEFL English Proficiency Test
- IELTS Certificate
- Egypt FWD (Udacity) – Web Development
- Consistently ranked in the Top 100 (peaking at 33rd) in ICPC ECPC Qualifications
- Honorable Mention in ICPC Egyptian CPC Finals and ICPC Africa & Arab for Girls
- Achieved 145th Place in ICPC ACPC Kickoff Individual Contest
- Coached and mentored junior ICPC Teens division teams, leading to placements and honorable mentions
- Awarded Ideal Student of South Valley University, class of 2025
